TRADE MARK
Azaleamum
The word Azaleamum is a trade-mark and cannot be used by other firms or individuals. Plants are patented where indicated; propagation rights reserved.
Glorymum & Santa Claus

When Azaleamums were first offered to the flower loving public, many would not believe that such a plant really did exist. Just imagine a plant with 600 or more beautiful blossoms open at a time. Many customers have grown 1000 blossoms to a plant and Azaleamum has even made a record of nearly 3000 on one plant at one time. The picture at the left shows the beautiful form of an Azaleamum in full bloom. Just see how the blossoms pile on top of one another. The whole plant is a gorgeous mass of glorious color. Starts blooming in August, sometimes earlier and continues until stopped by frost.

STRONG POTTED PLANTS—HARDY!

Plants furnished are grown in pots and come to you with a ball of earth on the roots for easy planting. Although small when you receive them they make a most unbelievable growth and by late August or early September will have reached the gorgeous dimensions and beauty of bloom indicated by the picture—plants often get 4 feet across and 2 to 2½ feet high. All Azaleamums and Glorymums are hardy perennials—live through the winter—even more blossoms the second year than the first.
